

Solidaridad AT A GLANCE 2022

Solidaridad is an international civil society organization with 53 years of experience in developing solutions to make communities more resilient and create more sustainable supply chains. Our solutions support the transition to an inclusive economy that provides sustainable livelihoods with fair and profitable business opportunities. This includes decent working conditions, a fair living wage and production in balance with nature.

VISION AND MISSION

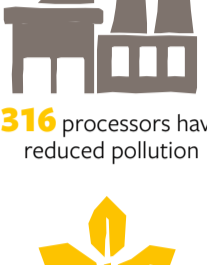

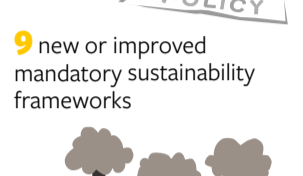

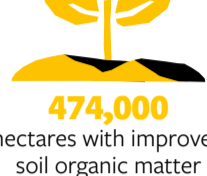

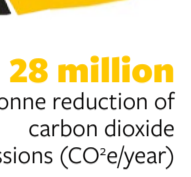

Our vision is **an economy that works for all**: a world in which all we produce, and all we consume, can sustain us while respecting the planet, each other and the next generations.

Our mission is to enable farmers and workers to earn a living income, shape their own future, and produce in balance with nature, by working throughout the supply chain to **make sustainability the norm**.

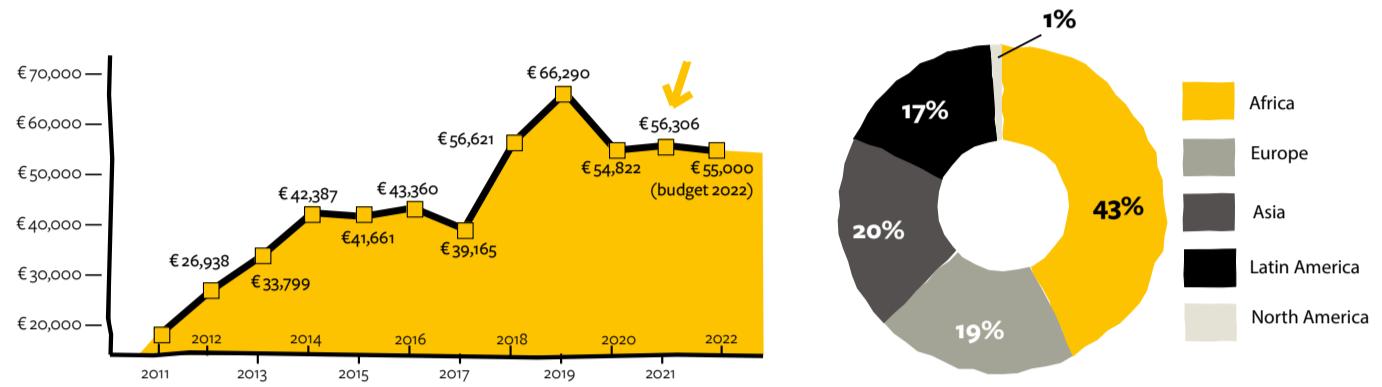

VALUES

| | | | | | | |
|--|---|---|---|---|---|---|
|  |  |  |  |  |  |  |
| SOLIDARITY | SOLUTIONS | IMPACT | INTER-DEPENDENCE | INNOVATION | INCLUSIVITY | INTEGRITY |
| We are faithful to the name of our organization in deeply rooted solidarity with the poor. | We are pragmatic problem solvers. | We are impact-driven and fully committed to achieve change that matters. | We are dependent on each other and on the planet, so we need to collaborate. | We believe continuous learning and development adds value and leads to positive change. | We believe everyone has the potential to contribute and the right to be heard. | We adhere to the highest ethical principles and professional standards. |

ACHIEVEMENTS 2021

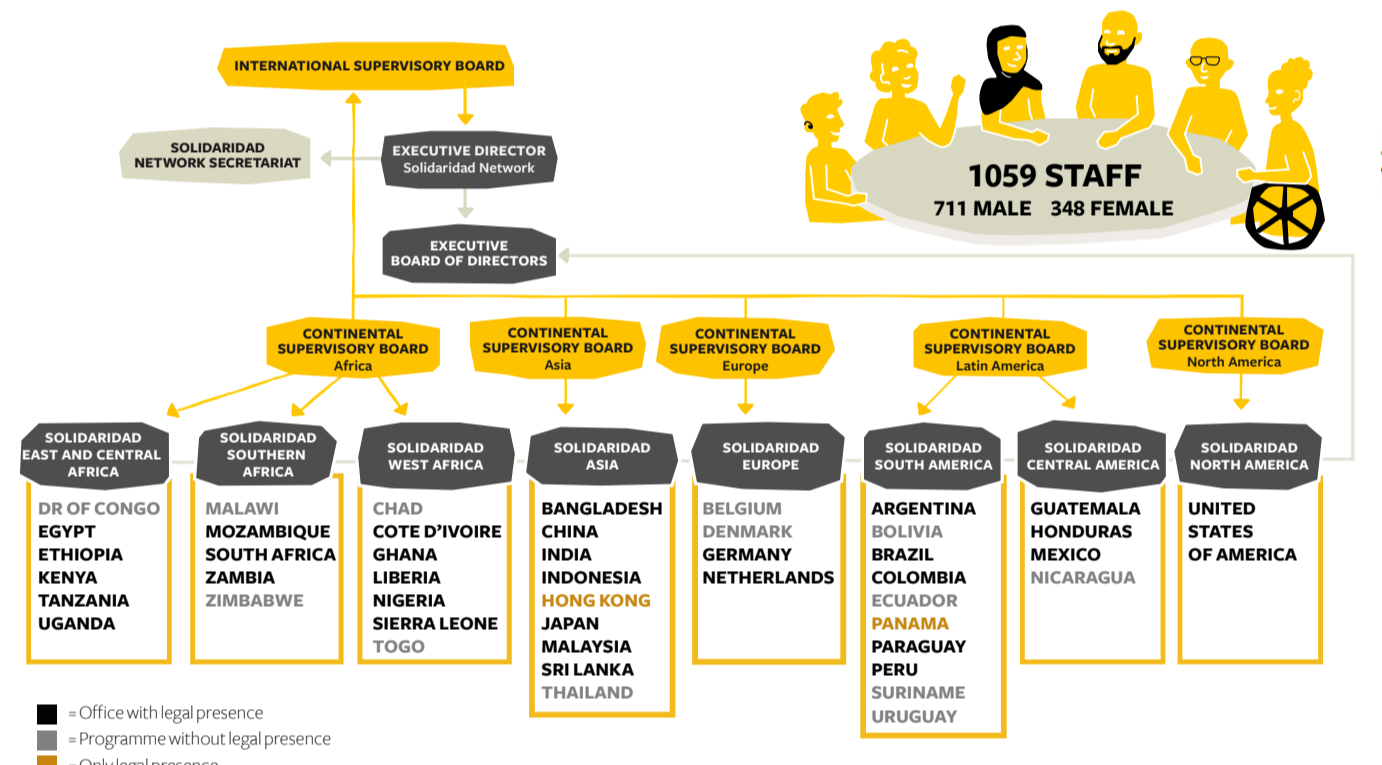

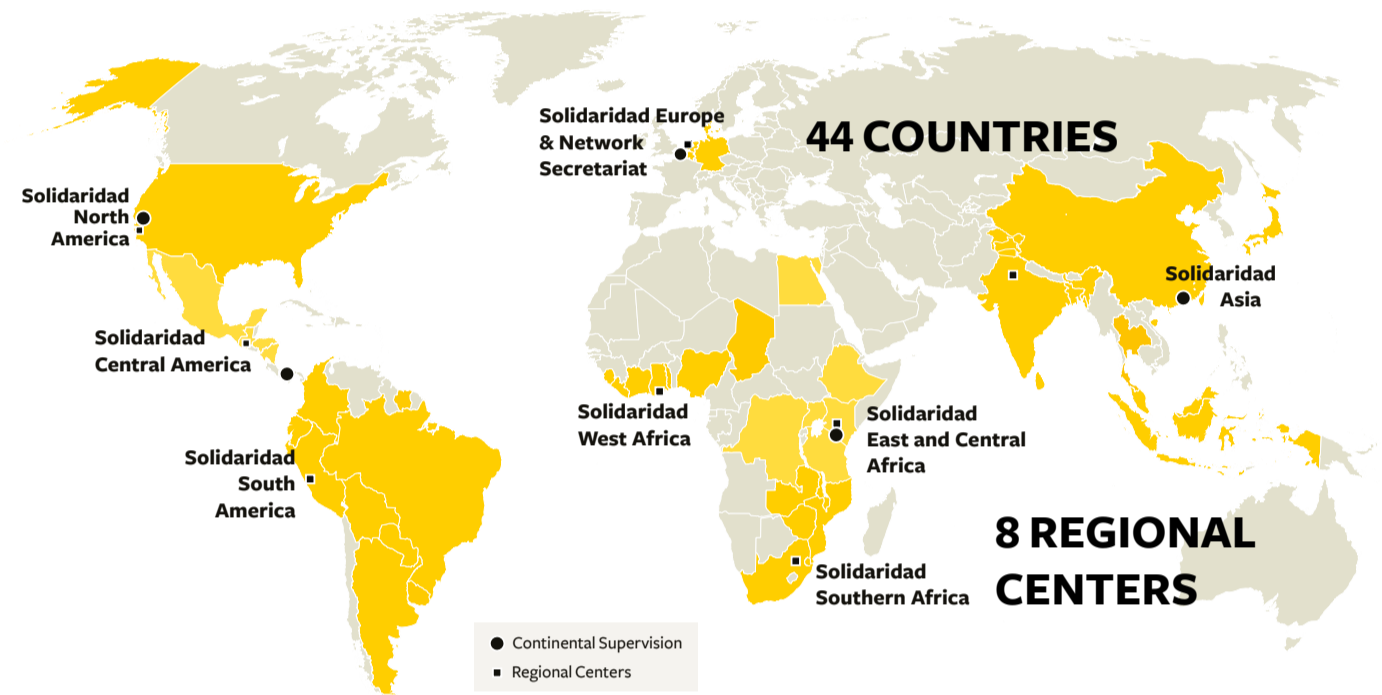

| | | | |
|--|---|---|--|
|  674,000 farmers with increased income |  316 processors have reduced pollution |  629,000 farmers with improved yields (kg/ha) |  840,000 farmers and miners obtain new or improved services from service providers supported by Solidaridad |
|  9 new or improved mandatory sustainability frameworks |  474,000 hectares with improved soil organic matter |  692,000 workers and miners under improved working conditions |  3,161 service providers with increased turnover |
|  2.6 million hectares under sustainable management |  181 corporates supported to test solutions with Solidaridad |  28 million tonne reduction of carbon dioxide emissions (CO ₂ e/year) | |

INCOME AND EXPENDITURE

A FEW EXAMPLES OF OUR WORK

| | |
|--|---|
|  ETHIOPIA |  COLOMBIA AND PERU |
|  EUROPE |  BANGLADESH |
|  WEST AFRICA |  BRAZIL |
|  SOUTHERN AFRICA |  INDIA |
|  WORLDWIDE |  CENTRAL AMERICA |
|  EAST AFRICA |  GHANA |

ETHIOPIA: In Ethiopia, we worked with factory managers and workers to sensitize 45,065 factory workers on occupational health and safety, resulting in improved working conditions.

COLOMBIA AND PERU: 2,000 coffee farmers in Colombia and Peru were registered in Rabobank's Acorn platform to receive carbon sales for planting forests within their farms. This enables them to directly benefit from the carbon market.

EUROPE: Through a collaborative citizen campaign we offered 40,000 signatures to the Dutch government, demanding to put in place legislation requiring companies to respect human rights and the environment in their value chains.

BANGLADESH: More than 12,000 women dairy farmers in Bangladesh were empowered with digital technologies to have better control on revenue earned.

WEST AFRICA: We trained over 8,000 cocoa farmers in good agricultural practices, improved farm management and diversification to enhance productivity. Through the Cocoa Life programme, we empowered women to take proactive roles in leadership.

BRAZIL: We launched the Transamazonia Platform to work on environmental regulation, financial mechanisms and forest restoration in the Amazon. The Public Credit Guide for Cocoa helps farmers to get credit for their improved production systems.

SOUTHERN AFRICA: Over 75,000 smallholder soy farmers recorded 250,000 metric tons produced under better management practices. We also provided access to certified seeds, inoculants and soil tests, leading to a 65% change and improvement in yield and/or productivity.

INDIA: Through the Trinita programme 41,400 hectares were brought under climate management practices. 105,000 tea farm workers improved their working conditions, over 60 percent are women (temporary) farmworkers.

WORLDWIDE: In all Solidaridad programmes, data driven solutions that provide added value to farmers and the businesses they work with are effectively developed and implemented. This way, we managed to reach 1.2 million small producers and workers with our solutions.

CENTRAL AMERICA: In Guatemala, Honduras and Nicaragua, the national interpretations of the RSPO principles and criteria were approved. We managed to get several smallholder organizations formalized and to get the sector's zero deforestation agreement officially ratified in Honduras.

EAST AFRICA: In Kenya and Tanzania 56 coffee demonstration plots were established to enhance knowledge transfer. In Kenya and Uganda, farmers increased productivity from an average of 2 to 3.4 kilos of coffee yield per tree, resulting in increased incomes.

GHANA: 15 artisanal and small-scale mines improved their working conditions after we trained them to operate responsibly in line with the CRAFT Code. Key elements of the Code have now also been incorporated into a national regulatory framework.

SOME OF OUR DONORS AND PARTNERS

Our results have only materialized thanks to the generous support from many governments, donors and companies all over the world. Almost 70 percent from our income in 2021 came from government grants, with the Dutch government being the biggest contributor.
